

## The Declaration of Startup Friendly Kansai 関西ベンチャーフレンドリー宣言

Under the Kansai Startup Backing Initiative, we aim to make the Kansai region a highly innovative area full of creativity and fully open to the world.

To this end, now that a startup ecosystem is emerging in the Kansai region, we hereby announce that all supporting companies are quite positive in: inheriting a dynamic corporate culture typified by a unique way of thinking as well as a “Just try it” culture, both of which we have long fostered; and staying close beside next-generation entrepreneurs striving hard to launch new businesses, thereby providing them with necessary support.

August 6, 2018

## **[Our Overview] (Dear startups)**

Given that the Kansai region has historically produced many entrepreneurs, we believe that the region has the potential ability to produce and raise entrepreneurs in modern society. In recent years especially, business enterprises, local governments, universities, etc. have taken a growing interest in nurturing startup companies, thereby intensifying support activities for startup companies. However, these efforts have only led to the region being dotted with startup companies that are not integrated into a single combined system of startup companies and start-up corporations. Among others, increased efforts for open innovation would be required from large companies and startup companies.

To enable the Kansai region to achieve further growth, it is vital to break the status quo to revitalize Kansai's startup ecosystem. This has prompted us to announce the Kansai Startup Backing Initiative, aimed at deepening cooperation between existing companies and new startups. Asked about big hurdles faced in opening up a business, many startup companies cited their being turned away at the door due to lack of past trade performance when they approached existing companies, as well as business-building and development of marketing networks, technical support, management of funds, etc. To solve these problems, we have called upon business enterprises and other organizations willing to provide consultation on these matters. Their category of business covers a broad range, including financing, trading houses, manufacturing, IT firms, and infrastructure-building. You are encouraged to actively use the opportunities offered under the bolstered system.

## **[Supporting Companies as of May 9th, 2022](in alphabetical order) (103 companies in total)**

| <b>Industry</b>  | <b>Company / organization name</b>   |
|--|--|
| Construction   | DAIWA HOUSE INDUSTRY CO., LTD / SHIMIZU CORPORATION  |
